# Fizz Labs Accessibility Conformance Report — WCAG Edition

Based on VPAT® Version 2.5Rev (WCAG edition)

> This is a software-assisted draft for your review. It is based on automated testing and has not been reviewed by an accessibility specialist. You are responsible for verifying it and for any report you give to a buyer. Not legal advice.

**Name of Product/Version**
Fizz Labs Accessibility Check, build content-90211a3f1976 (fizz-eaa-check.pages.dev)

**Report Date**
November 9, 2026

**Product Description**
A free, in-browser WCAG accessibility scanner for online stores and SaaS, with a BFSG self-check and sample reports.

**Contact Information**
support@fizzlabs.ai

**Notes**
Scanned from the identical static build served locally (127.0.0.1) before deployment to fizz-eaa-check.pages.dev. The bookmarklet results panel and the pasted-HTML preview are out of scope. Pages in scope: /, /de/, /privacy, /de/datenschutz, /vpat, /shopify, /title-ii, /terms, /guides/shopify-ada-accessibility-checklist, /guides/wcag-21-aa-quick-audit, /guides/vpat-vs-acr, /guides/eaa-vs-ada.

**Evaluation Methods Used**
Automated testing with axe-core 4.13.0 (WCAG 2.0/2.1/2.2 A and AA rules) in Chromium 158.0.8127.18 (Playwright 1.65.0) at 1280px and 320px viewport widths; automated keyboard and reflow tests; automated media inventory. No assistive technology testing and no manual expert review were performed.

## Applicable Standards/Guidelines

**Standards and guidelines covered by this report**

| Standard/Guideline | Included in Report |
|---|---|
| **Web Content Accessibility Guidelines 2.1 (https://www.w3.org/TR/WCAG21/)** | Level A (Yes), Level AA (Yes), Level AAA (No) |
| **Web Content Accessibility Guidelines 2.0 and 2.2** | No |

## Summary of this draft

- **Supports**: 4 of 50
- **Partially Supports**: 0 of 50
- **Does Not Support**: 0 of 50
- **Not Applicable**: 6 of 50
- **Not Evaluated**: 40 of 50

Most rows are Not Evaluated because automated tests cannot decide them. That is the honest starting point for a vendor ACR, not the end result.

## Terms

The terms used in the Conformance Level column are defined as follows:

**Supports**
The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.

**Partially Supports**
Some functionality of the product does not meet the criterion.

**Does Not Support**
The majority of product functionality does not meet the criterion.

**Not Applicable**
The criterion is not relevant to the product.

**Not Evaluated**
The product has not been evaluated against the criterion. In this draft the term is also used for Level A and AA criteria that automated testing cannot decide, shown as “Not Evaluated — manual review required”. This deviates from the ITI definition, which allows Not Evaluated only for Level AAA criteria in a final report: before this document is given to a buyer, every such row must be replaced with one of the four terms above after manual review.

## WCAG 2.1 Report

Criteria are scoped for full pages, complete processes and accessibility-supported ways of using technology, as described in the WCAG 2.1 conformance requirements.

### Table 1: Success Criteria, Level A

**Table 1: WCAG 2.1 Level A success criteria**

| Criteria | Conformance Level | Remarks and Explanations |
|---|---|---|
| **1.1.1 Non-text Content (Level A)** | Not Evaluated | Not Evaluated — manual review required. Check that every alt text describes the image’s purpose and decorative images are hidden. No automated violations were found, which does not show support. |

| Criteria | Conformance Level | Remarks and Explanations |
|---|---|---|
| **1.2.1 Audio-only and Video-only (Prerecorded) (Level A)** | Not Applicable | No prerecorded or live audio/video found on the pages in scope (automated inventory). |
| **1.2.2 Captions (Prerecorded) (Level A)** | Not Applicable | No prerecorded or live audio/video found on the pages in scope (automated inventory). |
| **1.2.3 Audio Description or Media Alternative (Prerecorded) (Level A)** | Not Applicable | No prerecorded or live audio/video found on the pages in scope (automated inventory). |
| **1.3.1 Info and Relationships (Level A)** | Not Evaluated | Not Evaluated — manual review required. Check that headings, lists, tables and form groups are marked up as they appear. No automated violations were found, which does not show support. |
| **1.3.2 Meaningful Sequence (Level A)** | Not Evaluated | Not Evaluated — manual review required. Check that the reading order matches the visual order with CSS turned off. No automated violations were found, which does not show support. |
| **1.3.3 Sensory Characteristics (Level A)** | Not Evaluated | Not Evaluated — manual review required. Check that instructions do not rely only on shape, position, size or sound. No automated violations were found, which does not show support. |
| **1.4.1 Use of Color (Level A)** | Not Evaluated | Not Evaluated — manual review required. Check that colour is never the only way information or state is shown. No automated violations were found, which does not show support. |
| **1.4.2 Audio Control (Level A)** | Not Applicable | No prerecorded or live audio/video found on the pages in scope (automated inventory). |
| **2.1.1 Keyboard (Level A)** | Not Evaluated | Not Evaluated — manual review required. Operate every function with the keyboard alone. No automated violations were found, which does not show support. |
| **2.1.2 No Keyboard Trap (Level A)** | Not Evaluated | Not Evaluated — manual review required. Check that keyboard focus can leave every component. No automated violations were found, which does not show support. |
| **2.1.4 Character Key Shortcuts (Level A)** | Not Evaluated | Not Evaluated — manual review required. Check for single-character shortcuts and that they can be turned off or remapped. No automated violations were found, which does not show support. |
| **2.2.1 Timing Adjustable (Level A)** | Not Evaluated | Not Evaluated — manual review required. Check for time limits and that users can turn off, adjust or extend them. No automated violations were found, which does not show support. |

| Criteria | Conformance Level | Remarks and Explanations |
|---|---|---|
| **2.2.2 Pause, Stop, Hide (Level A)** | Not Evaluated | Not Evaluated — manual review required. Check that moving, blinking or auto-updating content can be paused, stopped or hidden. No automated violations were found, which does not show support. |
| **2.3.1 Three Flashes or Below Threshold (Level A)** | Not Evaluated | Not Evaluated — manual review required. Check that nothing flashes more than three times per second. No automated violations were found, which does not show support. |
| **2.4.1 Bypass Blocks (Level A)** | Supports | Automated: automated keyboard test: the first Tab stop on every page is a skip link to the main content, and the target exists. |
| **2.4.2 Page Titled (Level A)** | Not Evaluated | Not Evaluated — manual review required. Check that each page title describes its topic or purpose. No automated violations were found, which does not show support. |
| **2.4.3 Focus Order (Level A)** | Not Evaluated | Not Evaluated — manual review required. Tab through each page and dialog; focus order must preserve meaning. No automated violations were found, which does not show support. |
| **2.4.4 Link Purpose (In Context) (Level A)** | Not Evaluated | Not Evaluated — manual review required. Check that each link's purpose is clear from its text or context. No automated violations were found, which does not show support. |
| **2.5.1 Pointer Gestures (Level A)** | Not Evaluated | Not Evaluated — manual review required. Check that multipoint or path gestures have a single-pointer alternative. No automated violations were found, which does not show support. |
| **2.5.2 Pointer Cancellation (Level A)** | Not Evaluated | Not Evaluated — manual review required. Check that actions fire on pointer up or can be aborted or undone. No automated violations were found, which does not show support. |
| **2.5.3 Label in Name (Level A)** | Not Evaluated | Not Evaluated — manual review required. Check that each control's accessible name contains its visible label text. No automated violations were found, which does not show support. |
| **2.5.4 Motion Actuation (Level A)** | Not Evaluated | Not Evaluated — manual review required. Check for motion-triggered functions and that they have alternatives. No automated violations were found, which does not show support. |
| **3.1.1 Language of Page (Level A)** | Supports | Automated: axe-core rules html-has-lang and html-lang-valid passed on every page in scope. |
| **3.2.1 On Focus (Level A)** | Not Evaluated | Not Evaluated — manual review required. Check that moving focus does not change the context. No automated violations were found, which does not show support. |

| Criteria | Conformance Level | Remarks and Explanations |
|---|---|---|
| **3.2.2 On Input (Level A)** | Not Evaluated | Not Evaluated — manual review required. Check that changing a setting does not change the context without warning. No automated violations were found, which does not show support. |
| **3.3.1 Error Identification (Level A)** | Not Evaluated | Not Evaluated — manual review required. Submit forms with errors; each error must be identified and described in text. No automated violations were found, which does not show support. |
| **3.3.2 Labels or Instructions (Level A)** | Not Evaluated | Not Evaluated — manual review required. Check that inputs have visible labels or instructions. No automated violations were found, which does not show support. |
| **4.1.1 Parsing (Level A)** | Supports | Automated: WCAG 2.1 errata note: this criterion should be considered as always satisfied for any content using HTML or XML (https://www.w3.org/TR/WCAG21/#parsing). |
| **4.1.2 Name, Role, Value (Level A)** | Not Evaluated | Not Evaluated — manual review required. Check custom controls with a screen reader for name, role and state. No automated violations were found, which does not show support. |

## Table 2: Success Criteria, Level AA

**Table 2: WCAG 2.1 Level AA success criteria**

| Criteria | Conformance Level | Remarks and Explanations |
|---|---|---|
| **1.2.4 Captions (Live) (Level AA)** | Not Applicable | No prerecorded or live audio/video found on the pages in scope (automated inventory). |
| **1.2.5 Audio Description (Prerecorded) (Level AA)** | Not Applicable | No prerecorded or live audio/video found on the pages in scope (automated inventory). |
| **1.3.4 Orientation (Level AA)** | Not Evaluated | Not Evaluated — manual review required. Check that content works in both portrait and landscape. No automated violations were found, which does not show support. |
| **1.3.5 Identify Input Purpose (Level AA)** | Not Evaluated | Not Evaluated — manual review required. Check that personal-data fields carry the correct autocomplete values. No automated violations were found, which does not show support. |
| **1.4.3 Contrast (Minimum) (Level AA)** | Not Evaluated | Not Evaluated — manual review required. Check text on images, gradients and states the scanner could not measure. No automated violations were found, which does not show support. |
| **1.4.4 Resize Text (Level AA)** | Not Evaluated | Not Evaluated — manual review required. Zoom to 200% and check that no content or function is lost. No automated violations were found, which does not show support. |

| Criteria | Conformance Level | Remarks and Explanations |
|---|---|---|
| **1.4.5 Images of Text (Level AA)** | Not Evaluated | Not Evaluated — manual review required. Check that text is not presented as an image unless essential. No automated violations were found, which does not show support. |
| **1.4.10 Reflow (Level AA)** | Supports | Automated: automated test: no horizontal scrolling on any page in scope at a 320 CSS pixel wide viewport. |
| **1.4.11 Non-text Contrast (Level AA)** | Not Evaluated | Not Evaluated — manual review required. Check 3:1 contrast for focus rings, input borders and meaningful icons. No automated violations were found, which does not show support. |
| **1.4.12 Text Spacing (Level AA)** | Not Evaluated | Not Evaluated — manual review required. Apply the WCAG text-spacing values and check that nothing is cut off. No automated violations were found, which does not show support. |
| **1.4.13 Content on Hover or Focus (Level AA)** | Not Evaluated | Not Evaluated — manual review required. Check that tooltips and pop-ups are dismissible, hoverable and persistent. No automated violations were found, which does not show support. |
| **2.4.5 Multiple Ways (Level AA)** | Not Evaluated | Not Evaluated — manual review required. Check that pages can be found in more than one way (navigation, search, site map). No automated violations were found, which does not show support. |
| **2.4.6 Headings and Labels (Level AA)** | Not Evaluated | Not Evaluated — manual review required. Check that headings and labels describe their topic or purpose. No automated violations were found, which does not show support. |
| **2.4.7 Focus Visible (Level AA)** | Not Evaluated | Not Evaluated — manual review required. Tab through each page and check that focus is always visible. No automated violations were found, which does not show support. |
| **3.1.2 Language of Parts (Level AA)** | Not Evaluated | Not Evaluated — manual review required. Check that passages in another language are marked with lang. No automated violations were found, which does not show support. |
| **3.2.3 Consistent Navigation (Level AA)** | Not Evaluated | Not Evaluated — manual review required. Check that repeated navigation appears in the same order on every page. No automated violations were found, which does not show support. |
| **3.2.4 Consistent Identification (Level AA)** | Not Evaluated | Not Evaluated — manual review required. Check that components with the same function are labelled the same way. No automated violations were found, which does not show support. |
| **3.3.3 Error Suggestion (Level AA)** | Not Evaluated | Not Evaluated — manual review required. Check that error messages suggest how to fix the input. No automated violations were found, which does not show support. |

| Criteria | Conformance Level | Remarks and Explanations |
|---|---|---|
| **3.3.4 Error Prevention (Legal, Financial, Data) (Level AA)** | Not Evaluated | Not Evaluated — manual review required. Check that legal or financial submissions can be reviewed, corrected or reversed. No automated violations were found, which does not show support. |
| **4.1.3 Status Messages (Level AA)** | Not Evaluated | Not Evaluated — manual review required. Check with a screen reader that status messages are announced without focus. No automated violations were found, which does not show support. |
